Mubeen Matthew Inamdar

PROFESSIONAL PROFILE

I am a web developer with a strong initiative and a desire to learn. A majority of my knowledge has been acquired through self teaching methods using the application of books, documentation, video, and forums. I have a proven record to take an idea to a complete and functional web application with a paying client. I am passionate about my craft and looking to progress my exciting career in web development where I can grow into a highly useful and sought after member of the company.

KEY STRENGTHS

- High attention to detail and endeavour to write clean code.
- Abundance of self motivation and determination.
- Consistency to always meet goals regardless of barriers.
- Quick and efficient ability to learn and pick up new concepts.
- Open minded to new ideas and accept all criticism as valuable advice.
- Willingness to learn and study at all times
- Paramount at organisation and prioritising workloads.
- Exceptional interpersonal and communication skills.
- Ability to handle disruptions in order to meet deadlines.
- Motivated self-starter and creative problem-solver who works hard alone and invites challenges.

TECHNOLOGIES

- PHP, Laravel, Composer
- MySQL, SQLite
- HTML, CSS, Bootstrap, MaterializeCSS, Bulma, Semantic UI, SASS, LESS, NPM, Bower
- JavaScript, ECMAScript 6, jQuery, Vue.js
- Webpack, Gulp
- Git, GitHub, Bitbucket
- Linux, Debian, Ubuntu, CentOS, RedHat, CLI, SSH, Vim
- NGINX, Apache, SSL, Vagrant
- Photoshop, Affinity Photo, Affinity Designer

EXPERIENCE - PROJECTS

GATENBYSANDERSON (EXECUTIVE RECRUITMENT)
FULL TIME EMPLOYMENT: 2016-PRESENT

In my full time employment, I work on the internal PHP based system, where I take a pro-active role in creating new features, regular code refactoring, fixing bugs, and tuning algorithms to ensure, and improve, high performance at all times. It is of the utmost importance that the PHP based system, is constantly developed to keep in sync with ever changing new technologies, not only for obvious security reasons, but also to maintain state of the art services, which attracts high paying cliental.

OVERVIEW OF EXPERIENCE:
- Creating new features upon request.
- Performing bug fixes and code refactoring.
- Making performance improvements where possible.
- Working with legacy code.
- Liaising with several clients at the same time.
- Setting both reasonable and achievable deadlines.
- Working within a team and contributing to the same project via Git.
- Discussing my own ideas to help aid future development of the system.

BIG BLUE LETTINGS (LETTING AGENCY)
LETTING MANAGEMENT SYSTEM: 2016-PRESENT

I developed an entire system based on the Laravel framework which is used to operate the entirety of their business. Work is still ongoing whenever they need a new feature implementing or want to make changes to existing procedures.

OVERVIEW OF EXPERIENCE:
- Developing and deploying a large application from scratch.
- Taking part in many business meetings to discuss current progress and ideas.
- Designing a database schema with long term evolution in mind.
- Ensuring code is secure and correct as it is critical for the business.
- Performing server administration and implementing automatic backups.
- Dynamically generating PDF and CSV files.
- Emailing tenants and landlords payment information.
- Automatically sending emails to tenants to advise payments are due.
- Quickly troubleshooting problems and providing a fix.
- How to communicate effectively with a paying client.

EDUCATION AND QUALIFICATIONS

LAWNSWOOD HIGH SCHOOL (2006-2011)
9 GCSE'S GRADE A-C INCLUDING:

A - ICT
A - Physics
B - Maths
B - English
B - Chemistry
C - Biology

INTERESTS

Education is at the top of the list of my interests. Web development and software engineering aside, I have passion for learning about new things in general. Recently I have found myself reading a lot about personal finance management, self-improvement and even some phycology.

REFEREES

Available on request.
